Honeywell Audiovisuals

X-DA Digital Amplifier with 24VDC

Honeywell Audiovisuals is pleased to announce the release of our high efficient digital power amplifiers at full range 1*500W, 2*250W and 4*125W for public address amplification with 24VDC backup power supply. Featuring 2U compact design, high efficiency at around 85%, excellent performance with more than 90 dB S/N ratio, and weigh only at about 11 kg., it can work with Honeywell Audiovisual's public address system and other systems.

We are excited to offer the new digital amplifiers. If you are interested in the products and need more information, please feel free to contact us.
